

## ***OH! CMS features***

### ***Integrated Google Analytics***

Learn who's visiting your site from where and for how long - one single glance at the OH! CMS dashboard gives you all the statistics you need.

### ***Inline Editing***

What you see is (actually) what you get! The OH! CMS inline editor allows you to edit content directly within your website; there won't be any surprises waiting for you after you hit 'publish'.

### ***Picture Perfect***

You no longer need to be a photo editing expert to add images to your site. Our new and improved image manager lets you crop and resize your pictures easily so you can get that perfect photo fit.

### ***Responsively Responsive***

Whether you're at your desk or on the go with your tablet or smartphone, the latest version of the OH! CMS adapts to your device to provide you with an optimal experience.

### ***Endlessly Expandable***

If there's something you need that isn't a part of our OH! CMS standard installation package, we can build whatever you need. The possibilities are truly endless.

### ***A Secure Platform***

OH! CMS protects against common types of attacks, including Cross-Site Request Forgeries and SQL Injections, ensuring your website, your content and all stored data is safe and sound..
